

Miko's Classroom Pack

Colours, counting and shapes for ages 1 to 5

For schools, libraries and early-years groups

A 15-minute Miko session

Works with one child, a storytime circle, or a whole class.

1. Sing (4 min)

Play the Colour Hunt video from the playlist. Pause when Miko asks a question and wait for the answers. Ask everyone to point to something red, then blue, and so on.

2. Play (5 min)

Open mikosplayroom.com/play on a big screen. Colour Hunt, Counting and Shape Match all work with a mouse, touch or arrow keys, and nobody can lose. Let children take turns tapping.

3. Make (6 min)

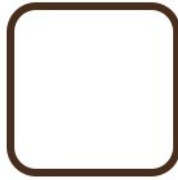

Hand out the sheets in this pack. The checklist works as a walk-around hunt; the counting and shapes sheets suit table time; colouring pages are good for early finishers.

Good to know

The website has no ads, no tracking and no accounts. Anything that leaves the play area asks a grown-up question first. Sound is off by default; tap the speaker in the header to turn it on. Videos load only after a tap and play through YouTube's no-cookie player.

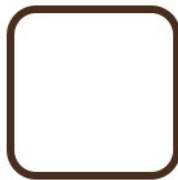

Colour Hunt checklist

Find something in each colour. Tick the box, or draw what you found!

Red

Try: an apple, a fire truck, a strawberry

Blue

Try: a ball, the sky, a pencil

Yellow

Try: a duck, a banana, the sun

Green

Try: a frog, a leaf, grass

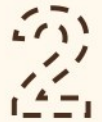

Purple

Try: a butterfly, grapes, a crayon

Name: _____

Count with Miko

Count the circles, say the number out loud, then colour them in and trace the numeral.

Trace and colour the shapes

Trace the dotted shape, then colour it to match Miko's. Which shape is your favourite?

Circle

Square

Triangle

Star

Heart
